Profile

Backend developer working with NestJS and Laravel, currently building the backend of Faci-lity, a logistics and FinTech platform. Combining a software engineering degree with hands-on experience in airport cargo operations, I design reliable APIs for real business workflows and thrive in collaborative, review-driven teams.

Employment

Backend Developer — **Jun 2026 - Present**
Faci-lity, Nouakchott

- Sole backend developer in a team of 4 (project lead, web and mobile developers).
- Designing and building the REST API powering the web and mobile apps of a logistics & FinTech platform.
- Git workflow with pull requests, code review and Trello-based task tracking.
